To receive the articulated credit, students must in enroll at MCC within two years of their high school graduation date and meet the following criteria:

- Final Grade of B or higher in the course and
- A score of 80 or higher in the standardized CTE post-assessment
- If the standardized CTE post-assessment is in a pilot phase, then MCC will use the grade in the course to award the articulated credit

High school students who enroll in a CCP pathway may earn articulated credit as described in this agreement while enrolled in high school, if the CTE articulated credit is part of their CCP pathway.

The Director of Records and Registration at Mayland will verify the eligibility and acceptance of articulated courses listed on the high school transcript. Students will be asked for supporting documentation and/or proficiency to receive credit.
